Load and Unload Plant

NATIONAL UNIT OF COMPETENCY: RIIHAN308F – Load and unload plant

COURSE OVERVIEW:

With the amendments to the Heavy Vehicle National Law (HVNL), coming into effect on 1 October 2018, the onus of responsibility now lies on *every party* within the heavy vehicle transport supply chain to ensure the safety of their transport activities.

This course will provide participants with the necessary skills and knowledge that are required to safely, and efficiently, load, secure, and unload plant in the Resources and Infrastructure Industries.

COURSE DURATION:

Approximately 8 hours, dependent upon participant skill, knowledge and class numbers. Please enquire at time of booking.

COURSE CONTENT:

Assessment is based on theory questions as well as simulated practical scenarios and includes:

1. Planning and preparing to load or unload plant
2. Hazard and risk identification
3. Calculating weights, volumes, centre of gravity and restraint requirements
4. Types and limitations of restraints
5. Loading the plant in line with established requirements
6. Unloading the plant in line with established requirements

DELIVERY METHOD:

This course will be delivered on behalf of APS Training Group by Regional Training Contractors of South Australia under a third-party agreement.

- This unit contains both theory and practical elements.
- Blended training:
    - Face-to-face on the job
    - Classroom based
    - Option of self-paced theory assessment prior to practical assessment.

LOCATIONS:

RTCSA delivers APS Training Group's course: RIIHAN308F – Load and unload plant, at:
