

Plant Operations

DUTY OF CARE

Loadshifting - Front End Loader Backhoe (LB); Excavator (LE); Front End Loader (LL); Front End Loader Skid Steer (LS); Bulldozer (LZ).

Non-Loadshifting - Roller (RS); Grader (GS); Water Cart (WC); Wheeled Tractor Safety (WTS); Haul Truck (HS).

DUTY OF CARE OVERVIEW:

Plant Duty of Care assessments are designed to cover the safe use and operation of specified plant and equipment in South Australia. These assessments are for experienced operators who require independent validation of their skills, or for the employer who requires ticketing for their employees in accordance with meeting Work Health and Safety Regulations.

This course is assessment only. **Participants must have a minimum of 15 hours experience in the piece of plant they wish to be assessed in, and a third-party report may be used to verify this.**

LOCATIONS:

RTCSA delivers Duty of Care assessments, at worksites throughout regional South Australia, Western Victoria and South-Western NSW.

COURSE CONTENT:

Assessment is based on theory questions as well as simulated practical scenarios and includes:

- Conduct routine checks
- Plan work
- Check controls and equipment
- Shift loads
- Shut down equipment
- Secure site

DELIVERY METHOD:

This assessment contains both theory questions and practical assessment. (Blended Training: Face to face onsite/workplace; classroom based. Option of self-paced theory assessment prior to practical assessment).

COURSE DURATION:

Course duration will vary as to participant skill, knowledge, experience, and machine availability. Please allow between 2 – 4 hours to complete.
