Telehandler

NATIONAL UNIT OF COMPETENCY:
RIIHAN309F – Conduct telescopic materials handler operations

COURSE OVERVIEW:

This course provides participants with the skills and knowledge required to conduct telescopic material handler operations in the Resources and Infrastructure Industries.

Licensing, legislative, regulatory and certification requirements that apply to this unit can vary between states, territories, and industry sectors. Relevant information must be sourced prior to application of the unit.

This course is appropriate for individuals who are using a non-slewing telescopic materials handler with a lifting capacity of less than 3 tonnes.

COURSE DURATION:

The course duration will vary depending on participant background, experience and class numbers. Please enquire at time of booking. Approximate time of 8 hours.

COURSE CONTENT:

Assessment is based on theory questions as well as simulated practical scenarios and includes:

1. Plan and prepare for telescopic materials handler operations.
2. Conduct telescopic materials handler pre-operational checks.
3. Operate telescopic materials handler.
4. Attach, secure, lift, carry and place materials.
5. Select, remove and fit attachments.
6. Relocate the telescopic materials handler.
7. Conduct machine maintenance.
8. Clean up and housekeeping activities

DELIVERY METHOD:

This course will be delivered on behalf of APS Training Group by Regional Training Contractors of South Australia under a third-party agreement.

- This unit contains both theory and practical elements.
- Blended training:
  - Face-to-face on the job
  - Classroom based
  - Option of self-paced theory assessment prior to practical assessment.
