

Working at Heights

NATIONAL UNIT OF COMPETENCY: RIIWHS204E - Work Safely at Heights

COURSE OVERVIEW:

This nationally accredited course caters for all persons that are required to work at heights. This includes any situation where a worker is at a height where there is a potential to fall and cause injury, fall from one level to another, or is working in elevated work platforms (EWP), working from scaffold, or are required to be compliant with local legislation/Australian Standard AS/NZS: 1891.

Licensing, legislative, regulatory and certification requirements that apply to this unit can vary between states, territories, and industry sectors.

This course covers all relevant information about health and safety standards, general working at heights applications, permits, permit process, hazards and associated risks, preparation for heights work, roles and responsibilities, PPE, ladders, scaffolds, equipment inspection and use and more. Training consists of theory presentation, assessment and simulated practical scenarios.

Standard industry practice is that refresher training should be conducted every 2 years. This does vary from company to company though. Always check with your employer.

COURSE DURATION:

Approximate 8-hour duration, dependent upon participant skill and knowledge.

COURSE CONTENT:

- Identify work requirements
- Identify work procedures & instructions
- Access & install equipment
- Perform work at heights
- Clean up work area.

DELIVERY METHOD:

This course will be delivered on behalf of APS Training Group by Regional Training Contractors of South Australia under a third-party agreement.

- This unit contains both theory and practical elements.
- Blended training:
 - Face-to-face on the job
 - Classroom based
 - Option of self-paced theory assessment prior to practical assessment.
