Roller Operations

NATIONAL UNIT OF COMPETENCY: RIIMPO317F - Conduct roller operations

COURSE OVERVIEW:

This nationally accredited unit covers the skills and knowledge required to operate a roller to compact material. It is suitable for those working in site-based roles in the civil industries.

Licensing, legislative, regulatory and certification requirements that apply to this unit can vary between states, territories and industry sectors, and must be sourced from state jurisdictions prior to applying this unit.

This unit alone does not provide sufficient skill to independently load and unload equipment. To perform this activity safely, personnel must either complete, or be assisted by someone who has completed, RIIHAN308F - Load and unload plant or equivalent.

LOCATIONS:

RTCSA delivers roller training and/or assessment at:

- Worksites throughout regional South Australia, and Northwest + Southwest Victoria.

COURSE CONTENT:

Assessment is based on theory questions as well as simulated practical scenarios and includes:

1. Planning and preparing for roller operations including identifying hazards and environmental issues.
2. Conducting pre-operational checks and start up procedures.
3. Driving and operating roller using techniques suited to equipment capabilities, site and work conditions, and according to workplace procedures.
4. Monitoring hazards and risks during operations.
5. Relocating roller safely within and between work areas.
6. Assisting with loading and unloading of machine from float/trailer in accordance with safe work practices.
7. Parking, shutting down and securing of roller.
8. Post operational inspection of equipment as per workplace procedures.
9. Cleaning up after operations.

PRICE:

RTCSA is a predominantly onsite training provider and prices will vary due to differing training locations, participant numbers, participant experience and availability of machine. Quotes are supplied at time of training and/or assessment enquiry.

DELIVERY METHOD:

This course will be delivered on behalf of APS Training Group by Regional Training Contractors of South Australia under a third-party agreement.

- This unit contains theory and practical elements.
- Blended training:
  - Face-to-face on the job
  - Classroom based
  - Option of self-paced theory assessment prior to practical assessment.
